Target version:		Spent time:	1.00 hour
Description			
Dear Thanesh,			
Case 1			
If there is only 1 locator with no stock, then it's ok come to the -ve stock if we did Stock out transactions.			
But if the item has multiple locators and have stock on 1 locator then the Qty should less from the locator have stock instead of getting negative in other locators.			
Eg:			
Locator wise Stock			
Product Name: EU18785			
Quantity Locator Warehouse Organisation			
2619.00 D17 EURO Warehouse Euro Novelties LLc			
-202.00 0-0-0 EURO Warehouse Euro Novelties LLc			
-202.00 D13 EURO Warehouse Euro Novelties LLc			
-205.00 D12 EURO Warehouse Euro Novelties LLc			
-211.00 D4 EURO Warehouse Euro Novelties LLc			
Case 2			
We need an option In Sales return screen to choose the Locator where we want to keep back the item.			
Case 3			
The To Locator option is not working proper in Stock transfer screen			
Eg: if we add 3 items in Stock transfers with different "To locator" then after complete it, the last line locator will update for all items.			
Item To Locator			
EU19754 A1			
EU19753 A2			
EU19752 A3			
Once complete all the items will update in Locator A3.			
Case 4			
"To locator" field in CSV template in Stock transfer import.			

History

- Assignee changed from Peer Thanesh to Mohamed Suhail

For Case1,2 & 4, when discussed with Rijas, He is expecting an enhancement on this. Do I need to create a ticket for this?
For case 3 is a bug, can I create a ticket for that?

#2 - 06/13/2023 11:54 AM - Mohamed Suhail

- Status changed from New to In Progress
- Assignee changed from Mohamed Suhail to Peer Thanesh
- % Done changed from 0 to 50

[Peer Thanesh](#) Please raise a bug for #3

I checked issue #1 and found that it happened due to a locator made inactive (D17) in the system where there was stock qty for the item

See the list of inactive locators in the warehouse where stock qty is there for the item

name	m_product_id	m_locator_id	value	qtyonhand
EU18784	1011017	1010835	D17	4101
EU18785	1011018	1010835	D17	2618
EU18786	1011019	1010835	D17	3189
EU19754	1011864	1010835	D17	57
EU23006	1026581	1010835	D17	1845

(13 rows)

We need to make an enhancement in the system to check if there are any items with non-zero stock available on the locator before marking it as inactive @savad
