The org bpartner of the new org was having 3 bpartner locations

which is causing an issue with join in c_order_header_v

LEFT JOIN

```
(c_bpartner JOIN c_bpartner_location ON c_bpartner.c_bpartner_id = c_bpartner_location.c_bpartner_id)
orgbp(c_bpartner_id, ad_client_id, ad_org_id, isactive, created, createdby, updated, updatedby, value, name, name2, description, issmmary,
c_bp_group_id, isonetime, isprospect, isvendor, iscustomer, isemployee, issalesrep, referenceno, duns, url, ad_language, taxid, istaxexempt,
c_invoiceschedule_id, rating, salesvolume, numberemployees, naics, firstsale, acquisitioncost, potentiallifetimevalue, actuallifetimevalue,
shareofcustomer, paymentrule, so_creditlimit, so_creditused, c_paymentterm_id, m_pricelist_id, m_discountschema_id, c_dunning_id,
isdiscountrule, so_description, poreference, paymentrulepo, po_pricelist_id, po_discountschema_id, po_paymentterm_id, documentcopies,
c_greeting_id, invoicerule, deliveryrule, freightcostrule, deliveryviarule, salesrep_id, sendemail, bpartner_parent_id, invoice_printformat_id,
socreditstatus, shelflifeminpct, ad_orgbp_id, flatdiscount, totalopenbalance, dunninggrace, c_taxgroup_id, logo_id, ispotaxexempt, ismanufacturer,
c_currency_id, taxid1, comments, loyaltyno, cstno, panno, c_bpartner_loyalty_id, anniversary, isconsignee, gracedays, service_tax_no,
trade_license_no, cin, sst_no, isproductionsupervisor, email, birthday, extradetails, gender, bpartnertype, graceamt, invoice_doctype_id,
c_bpartner_location_id, ad_client_id_1, ad_org_id_1, isactive_1, created_1, createdby_1, updated_1, updatedby_1, name_1, isbillto, isshipto,
ispayfrom, isremitto, phone, phone2, fax, isdn, c_salesregion_id, c_bpartner_id_1, c_location_id, sequence)
ON orgbp.ad_orgbp_id = o.ad_org_id
```

(one fix it is to change the join in view as below

LEFT JOIN

```
(c_bpartner JOIN c_bpartner_location ON c_bpartner.c_bpartner_id = c_bpartner_location.c_bpartner_id *and c_bpartner_location.isbillto='Y') )
```

I created a new customer called "Org3 Bpartner" and made it as the org bpartner of the branch

Before

```
euro=# select name,ad_org_id,ad_orgbp_id,c_bpartner_id from c_bpartner where ad_orgbp_id is not null and ad_client_id=1000000;;
name | ad_org_id | ad_orgbp_id | c_bpartner_id
```

```
-----+-----+-----+-----
Euro Novelties LLC | 1000000 | 1000000 | 1000002
Van Sales | 1000001 | 1000001 | 1000201
Party Point - Euro Novelties LLC | 1000002 | 1000002 | 1000341
(3 rows)
```

Update scripts

```
euro=# update c_bpartner set ad_orgbp_id=NULL where c_bpartner_id=1000341;
UPDATE 1
euro=# update c_bpartner set ad_orgbp_id=1000002 where c_bpartner_id=1011377;
UPDATE 1
```

After

```
euro=# select name,ad_org_id,ad_orgbp_id,c_bpartner_id from c_bpartner where ad_orgbp_id is not null and ad_client_id=1000000;;
name | ad_org_id | ad_orgbp_id | c_bpartner_id
-----+-----+-----+-----
Euro Novelties LLc | 1000000 | 1000000 | 1000002
Van Sales | 1000001 | 1000001 | 1000201
Org3 Bpartner | 1000002 | 1000002 | 1011377
(3 rows)
```

#2 - 08/18/2021 05:05 PM - Noufal K

corrected the view. Please rerun sql 1439...sql

#3 - 08/18/2021 08:08 PM - Noufal K

- Status changed from Resolved to Closed

#4 - 04/23/2024 11:23 AM - SHAIJAL EDAVANA

- Assignee set to Shemil Ali

#5 - 05/21/2024 04:07 PM - SHAIJAL EDAVANA

- Tracker changed from Bug to Tasks
- Project changed from Euro Novelties to Temp Projects
