Description			
Issue 1			
I have completed Vendor shipment for PO JS20210401.			
After that			
- went to RG Screen and chose the Shipment No [BL No] and loaded items to screen.			
- Gave Qty as per the vendor shipment completed			
Eg: PP2440 PO Qty: 35CTN, Shipped Qty: 35CTN, But in RG unable to give Qty more than "35Pcs".			
Issue 2			
I have voided this vendor shipment from Webui-->Material Receipt-->Completed Status changed to Void.			
- Go to RG screen, try to receive goods by choosing PO number.			
- Unable to give exact PO qty			
Eg: PP2440 PO Qty = 35CTN [2520Pcs], I can only receive 2485Pcs. [May be the 35Pcs of vendor shipment still exist.]
